MASTER LABOR AGREEMENT

between

SOUTHERN CALIFORNIA GENERAL CONTRACTORS, INC.

and

THE SOUTHERN CALIFORNIA

DISTRICT COUNCIL OF LABORERS

This Agreement entered into this first day of July 1997, by and between the **Associated General Contractors of California, Inc., the Building Industry Association of Southern California, Inc., the Engineering Contractors' Association and the Southern California Contractors Association, Inc.**, on behalf of their respective eligible members, hereinafter referred to as the **CONTRACTORS**; and, the **Southern California District Council of Laborers affiliated with Laborers' International Union of North America, AFL-CIO**, on behalf of itself and on behalf of its affiliated Local Unions which have jurisdiction over the work in the territory hereinafter described, all affiliated with the Building and Construction Trades Department of the American Federation of Labor and Congress of Industrial Organizations; hereinafter referred to as the **UNION**.

P U R P O S E

The Contractors are engaged in construction work in Southern California and, in the performance of their present and future operations, are employing and will employ workmen under the terms of this Agreement. The Contractors want to be assured of their ability to procure workmen in the geographic area hereinafter defined in Article I, in sufficient number and with sufficient skill to assure continuity of work in the completion of their construction work. The Union and the Contractors, by this Agreement, intend to establish uniform rates of pay, hours of employment and working conditions for the employees covered by this Agreement. The Union and the Contractors further intend by this Agreement to provide, establish and put into practice an effective method for the settlement of misunderstandings, disputes or grievances, with the thought in mind that the Contractors are assured continuity of operation and the employees of the Contractors are assured continuity of employment and industrial peace is maintained.

1. When employees are called out to work broken time or tide work, Monday through Friday, the minimum pay for such work shall be eight (8) hours at the applicable, regular straight- time rate. Subject to the above minimum, in computing the time to be paid for under this provision, eight (8) hours or less worked between 7:00 a.m. and 5:00 p.m. shall be paid for at the applicable straight-time rate, and time in excess of eight (8) hours worked between 7:00 a.m. and 5:00 p.m., and any time worked before 7:00 a.m. or after 5:00 p.m. shall be paid for at the applicable overtime rate.

2. When employees are called out to work broken time or tide work on Saturdays, Sundays or holidays, the minimum pay for such work shall be eight (8) hours at the applicable overtime rate.

H. Emergencies:

When it is mutually agreed that an emergency exists, such as earthquakes, floods or fire, the starting time for the shift may be made to fit the emergency and eight (8) hours in any twenty-four (24) hour period may be worked at the straight time rate. All other terms and conditions of this Agreement shall apply.

I. Subsistence

Any jobs or projects which have been bid or commitment made prior to September 1, 1992, will continue to be performed under the provisions of the 1988-1992 Agreement.

1. In the subsistence area, as herein defined in Exhibit "A" subject to the exceptions noted below, subsistence shall be paid at the rate of thirty dollars (\$30.00) per scheduled workday. There shall be no prorating of subsistence. Subsistence shall apply to workmen and/or employees who report to work and for whom no work is provided.

2. An employee or workman who is required to report or perform any work in a subsistence area for any portion of the day or shift shall receive the established subsistence rate for the entire day or shift.

3. No subsistence need be furnished or paid in the following instances:

(a) When the work performed on the job or project is located within the free zone designated in Exhibit "A".

(b) When the home of an employee, at the time a job is bid or commitment made on non-bid projects is located within sixty (60) road miles of the job or project which is located in the subsistence area.

(c) When the work performed on the job or project is located within fifty (50) road miles of the City Hall of Bishop, California.

4. Subsistence shall be paid at the rate of thirty-two dollars (\$32.00) per scheduled workday in the Counties of Inyo and Mono including Trona designated in Exhibit "A".

5. Subsistence as provided in Paragraph I-1 hereof shall be paid on jobs on the following offshore islands:

Richardson Rock	San Miguel Island
Santa Cruz Island	Santa Barbara Island
Arch Rock	San Clemente Island
San Nicholas Island	Santa Rosa Island
Santa Catalina Island	Anacapa Island

(1) Employees reporting at the embarkation point for travel to the above named islands shall be paid travel time from the mainland to the islands and return at the straight-time rate and in no event shall the travel time be less than one (1) hour regardless of mode of travel.

6. In lieu of subsistence, the Contractor may provide and maintain acceptable room and board on or immediately adjacent to the project seven (7) days per week in compliance with California State Laws.

J. Employees shall travel to and from their daily initial reporting place on their own time and by means of their own transportation. The Contractor shall be responsible for payment of wages from the reporting point, as ordered by the Contractor, to the jobsite and from job to job and return. However, employees who voluntarily report to a point for free transportation to the jobsite will not be compensated from the time enroute and return. For offshore work, employees will receive travel pay at straight-time rates from port of embarkation to jobsite and from jobsite to debarkation regardless of mode of transportation, which transportation shall be at the Contractor's expense. If no camp is furnished by the Contractor, such transportation shall be furnished daily.

K. Workmen referred under Article III to the Contractor's job who arrive in an unfit condition for work, without a written dispatch slip from the employment facility, without the proper documentation as set forth on INS I-9 Form, or who are not ready to go to work or who are not otherwise qualified in accordance with their written dispatch slip from the employment facility shall not be paid showup time or subsistence. Grievances or disputes arising out of the interpretation or application of this particular paragraph shall be referred to the procedure for settlement of grievances and disputes.

1. An employee who has been found, through the grievance procedure, to have been unjustifiably disciplined or discharged for refusing to perform work which would endanger his health or safety, or the health or safety of any other employee, shall be reinstated in his former classification. This is not to be construed as a waiver of the employee's rights under Section 502 of the Labor Management Relations Act of 1947, as amended.

2. The Contractor shall be solely responsible for implementation and maintenance of such safety laws, rules, regulations, standards, orders and decisions. Neither the Union nor any local Unions or District Councils are responsible for such implementation or maintenance.

3. After January 1, 1993, all laborers and entry level laborers shall receive certification that they have successfully completed the Basic Safety Course to be developed by the Laborers Training and Retraining Trust Fund of Southern California. Thereafter, certification shall be renewed annually. Such certification will be at no cost to the Employer.

B. Rest Periods

1. Employees shall be given a rest period of not less than six (6) hours between the termination of any overtime work, except for pre-shift overtime work up to a maximum of eight (8) hours, and the commencement of another straight time shift, unless performing emergency work which is not considered a normal job operation.

2. If employees do not receive the required six (6) hours' rest period, they shall be paid at the applicable overtime rate for each hour worked until they receive six (6) hours' rest off the job or project, regardless if a new workday starts or not.

C. Parking

In the event free parking facilities are not available within three hundred and fifty (350) yards of a jobsite, the individual Employer will provide such facilities and the individual Employer shall have the right to designate parking areas to be used. Where, because of congested parking conditions, it is necessary to use public facilities, the Employer shall reimburse the employee for the cost of such parking upon being presented with a receipt or voucher certifying to the cost thereof, such reimbursement to be made on a weekly basis or at the conclusion of the project, whichever occurs earlier. Designated parking areas shall be reasonably level and graded to drain.

D. Drinking Water

The Contractor shall furnish cool and potable drinking water in sufficient quantities for the needs of the employees and make available sanitary drinking cups and adequate toilet facilities in accordance with California State Law.

1. When so elected by the Contractor, multiple shifts may be worked for three (3) or more consecutive working days, provided that the Union is notified in writing twenty-four (24) hours in advance of the effective date of the starting of such multiple shift operations, provided however, that men working on multiple shifts shall not be interchangeable with those working on a single shift basis. All employees on multiple or single shifts commencing work prior to the established starting time, shall be paid at the applicable overtime rate. In no event shall the regular working hours of different shifts overlap nor shall any interval between shifts exceed the reasonable time necessary to change shifts, and in no event shall such interval exceed one (1) hour, except when a special shift is established in accordance with Paragraph F ~~s~~Special ~~s~~Shifts.

31. **Article XVIII (Working Rules for Laborers), Paragraph C (1.),** Revise to read:

C. 1. When so elected by the Contractor, a single shift starting at 5:00 a.m., 5:30 a.m., 6:00 a.m., 6:30 a.m., 7:00 a.m., 7:30 a.m. or 8:00 a.m.

32. **Article XVIII (Working Rules for Laborers), Paragraph C(2),** Revise to read:

The provisions of Paragraph C will apply only if ~~the employees of the employer performing work which comes within the recognized jurisdiction of the~~ Carpenters, Cement Masons, Operating Engineers and Teamsters *who have members working on the job or project for the Contractor* agree to the same provisions as outlined in the preceding Paragraph.

33. **Article XVIII (Working Rules for Laborers), Paragraph I (Subsistence),** Revise to read:

1. ~~In the subsistence area, as herein defined in Exhibit "A" subject to the exceptions noted below, s~~Subsistence shall be paid at the rate of forty-five dollars (\$45.00) per scheduled workday. There shall be no prorating of subsistence. Subsistence shall apply to workmen and/or employees who report to work and for whom no work is provided.

2. Subsistence as provided in Paragraph I-1 hereof shall be paid on jobs on the following offshore islands:

Richardson Rock	San Miguel Island
Santa Cruz Island	Santa Barbara Island
Arch Rock	San Clemente Island
San Nicholas Island	Santa Rosa Island
Santa Catalina Island	Anacapa Island

a) Employees reporting at the embarkation point for travel to the above named islands shall be paid travel time from the mainland to the islands
